About This Game

Earth is under siege!

A mysterious and powerful alien race has come to enslave the entire galaxy, and your fleet is humanity's last hope. You must put an end to the attacks and rebuild a home for the survivors. With the invaders in hot pursuit, and the dangers of the unexplored at every turn, do you have what it takes to forge a new galaxy?

Key features:

- Team up with up to 4 players and explore the galaxy.
- Enjoy challenging action, smart puzzles, and deep adventure.
- Customize your ship with a huge selection of parts.
- Use physics to solve puzzles or defeat your enemies.
- Create your own galaxy using the built in editor.
- Download new galaxies from other players for endless gameplay.

Proto Defense DLC

Source Studio is pleased to announce it's first Arcade map: Proto Defense!

Proto Defense is the first online multiplayer co-op turret defense game for ProtoGalaxy. Team up with your friends to defend Earth from alien invaders in this unique turret defense experience.

Key features:

- Team up to defend Earth from alien invaders.
- Pick from a big selection of turrets.
- Reposition your turrets at any time to deal extra damage.
- Take down huge bosses.
- Compete in leaderboards for the highest score.
- Tackle 8 new challenging achievements.
- Built using the ProtoGalaxy Editor.M

Title: ProtoGalaxy Genre: Action, Indie

i dunno how this got in my steam library. yiffy as \u2665\u2

P.S. The provided teams did not appeal to me at all, but there is a mod out there that replaces them all with the CFL teams, along with those team's rosters.. AFTERGRINDER comes Tinder or buttsex

Drops mic

10 from 10 for dad's joke, why i always screaming. A great simple game that I can actually afford. Wouldn't say better or worse than Minecraft or Terreria but otherwise, it's a good old retro game I had for many years.. I bought this game for the VR support but it's just too simple of a game for me to recommend. It's only slightly more complicated than the old slider puzzles from the 1870s and the added immersion from VR is completely wasted on this game.

This is one of my favourite songs to play in Rocksmith. The lead part (which I mostly play) is of moderate difficulty, it plays great both on acoustic and electric guitar and is really fun. The rhythm part is quite interesting as well and adds its own flavor to the song. You can also play lead chords and shuffle licks as a solo without any additional backing for having a sing-along acoustic experience of your own. I have not tried the bass, but you can see the bass part in the video I linked below. All in all I think this song is really worth learning and buying.

For further reference, please, do yourself a favor and look at Sam Schwartz, who note-tracked this song, talk about it and play it on the Rocksmith official blues-rock stream https:\/\/\youtu.be\/\sUJmrsCwpvg?t=2199. Relly not best game. Well, I was searching for a totally different game through "awesome" steam finder. However it found me this game. I was bored, it was cheap and I just had a few hours before sleeping. So I bought it, because visual side took my attention.

- + visual side
- + good for people in the bad mood, who want to kill everybody
- + nice animation
- achievements don't work properly (this is that type of game which you play (again and again) mainly because of achievements, but it is not fixed vet)
- short
- a lot of time I got stuck under the floor (few steps before the end for example) beacuse of bug, and it was really annoying

I know there is a lot of work behind this game, but when achievements don't work and it's still not fixed I can't recommend it right now.

. In interesting title with some really fresh core mechanics, but is not currently a finished project. If this is relisted as an Early Access title, you should pick it up, but at this stage the game is very raw to the point of unfinished.

Welcome to the VR McCree Simulator, where it's always... HIGH NOON!

Quick Draw puts you in the shoes of an old west gunslinger who spends his days having shootouts with ruffians. However it sounds much more exciting that it actually is...

It got repetitive really quickly. More so than most wave based games. There was no indication that it was going to end, just continue spawning new enemies. Reloading was tedious and forced you to holster one weapon at a time. More realistic, yes, More fun, not really.

At 4.99, your mileage may vary. It's definitely not for me and I don't see me playing it but it could wow others. I think I'm more on the No side on this one though. Really, the lack of gameplay variety and the slow repetitive pace are what push it over the edge from being borderline to No.
